ATTRIBUTES OF JOHN H. DEROSA

International Experience – Global experience and reach.

Technical – Broad IT technical ability and knowledge. BSEE and PMP.

Leadership – Driven to lead. Program level management expertise and experience.

Motivational – Inspire and train teams to excel in their assigned tasks.

Dependability – Above all else, by all means available, get the job done.

Trained – BSEE, Project Management Professional (PMP), Cisco Certifications

EXPERIENCE OF JOHN H. DEROSA

2002 TO DATE

Computer Sciences Corporation

IT PMO Management, Americas Rated Services - Responsible for IT related program/project management for major implementations on large accounts; General Dynamics, Motorola Inc, BHPBilliton, Exelon, Malaysian National Bank, Freescale Inc, Textron and Ingalls.

- **Current Program:** Huntington Ingalls (<http://www.huntingtoningalls.com>) – Program manager for transition integration into the CSC data centers primarily focused on the DR (Disaster Recovery) efforts.
- **Previous Programs:**
 - Textron (<http://textron.com>) – Program manager for large scale SAN (Storage Area Network) refresh and upgrade efforts at the CSC corporate data center and at all of the client business units' data centers. VoIP integration at the Textron corporate and Wash DC headquarters.
 - General Dynamics Corporate Headquarters (<http://generaldynamics.com>) - Lead Program Manager for projects related to the transition of networks control and support by CSC. Areas of effort across the Internet/Intranet spectrum; LAN/WAN, VoIP/QoS, Voice/Web/Video Conferencing, Firewalls, Remote Access and Secure Tokens, etc.
 - Motorola (<http://motorola.com>) - PMO Lead Program Manager for all global network projects related to the Mobility/Solutions corporate separation. Overall responsibility for all related Project Managers, the network service architects and the technical leads on this program with a budget of >20,000 labor hours and >\$20M of hardware across 27 countries. Areas of effort across the Internet/Intranet spectrum; LAN/WLAN/WAN, DNS/DHCP, NTP, VoIP/QoS, IPOP, SecNet, QZ, Firewalls, Remote Access, Secure Tokens, DD/Load Balancing, SecNet, etc.
 - BHPBilliton (<http://bhpbilliton.com>) - Account Program Manager for all Network related projects for the global enterprise. BHPBilliton is the world's largest mining and materials company. Managed technical teams in the US, Pakistan, Tunisia, Malaysia, Australia and the UK.

- Exelon (<http://exeloncorp.com>) - Account Program Manager during the transition phase to CSC support from another IT provider handling large and complex projects. Exelon is the largest nuclear power supplier in the US.
- Malaysian National Bank (<http://maybank.com>) – 12 month assignment in Kuala Lumpur on the MayBank account. Created and managed the PMO for a high visibility, tight timeline, computer network remediation program of 30+ projects across 8 project managers.
- Extremely strong IT and program/project management skills of large scale IT projects with particular emphasis on networking related projects.
- Managed Motorola enterprise networking projects including the global networking development, test, pilot and migration/refresh of all wireless infrastructure (1,000+ devices across 200+ locations) along with the migration of all wireless LAN users (30,000+). Created a web based “wizard” to facilitate user migration.
- Managed the team and created various large scale project including contract negotiations, support proposals, RFP responses and ROM request responses.
- Worked on projects revolving around server installations, relocations and consolidations (UNIX and Windows), security related efforts, certificated and other authentication systems, merger and acquisitions efforts and other diverse projects.
- Advanced Microsoft Project, PowerPoint, Excel and Word expertise. Working knowledge of HTML.

Computer Sciences Corporation

Senior Computer Scientist - Managed Network Services - Responsible for international wide area networking and program management for major accounts. Motorola Inc, Symbol Inc (Motorola Acquisition) and Freescale Inc (Motorola divestiture)

- Managing a diverse global staff covering all global regions (Americas, EMEA, Asia-Pac, Latin America).
- Maintain \$10M annual budget covering global telecommunications, personnel, maintenance and technology refresh.
- Featured speaker at IT business conferences and trade shows on Wireless Networking, Network Security and Remote Access topics.
- Managed a complex environment of WAN/LAN/Internet networking, DMZ, Routers, Firewalls, Topology and Architecture and VOIP (Avaya, Cisco).
- Design, implementation and management of Virtual Private Networking of Nortel, Cisco and SSL VPN and dial-up systems. Deployed global Nortel VPN remote access system of 15 gateways, seamless user migration all within record time and without adverse user effects.
- Working knowledge of Security and Authentication Environments (SecurID/ACE, ACS, AAA/RADIUS, LDAP).
- Wireless - Design, implementation and management of LAN (WLAN) Cisco access points, RADIUS, ACS, LEAP, EAP-TLS, TKIP, CKIP, along with Cellular and point-to-point wireless data systems. Lead on VxWorks to IOS Global Migration of 1,700+ Cisco Wireless Access Points and conversion from LEAP to mixed LEAP/EAP-TLS environment. Lead on test, pilot and production rollout of Symbol EAP-TLS light access points and switches.

1984 TO 2002

Motorola, Inc

Senior Resource Manager – Motorola Corporate IT

- Managed global group of network engineering team dealing with wide area networking (WAN) and local area networking (LAN) along with Wireless Networking (WLAN), Virtual Private Networking

and authentication, remote access and SOHO networking.

Senior Engineering Manager – Nextel Software Development IT

- IT Support of major NexTel software engineering team (500+ members) with 1000+ Sun Solaris workstations, Auspex, Sun Solaris Unix and Network Appliance server farms. Macintosh desktop and office automation support.. ClearCase CASE tool set.

Engineering Manager – GSM Software Development IT

- IT Support of primary GSM software engineering team with SunOS Unix workstations and servers. Macintosh desktop and office automation support.

Cellular Base Station Group Engineering Manager – Analog Cellular Systems

- Development engineering of base station microprocessor control systems. Transitioned from small design group through major design team with adjunct IT responsibilities.

PREVIOUS

Baldwin-Corthy Technology Company, Inc

Computer Engineering Lead

- Microprocessor based design of control systems for large & complex printing presses.

Federal Aviation Administration

Engineering Lead - Engineering Services

- Navigational aid systems engineering, installation and support within control tower, airport, flight service station and regional control centers.

EDUCATION OF JOHN H. DEROSA

Iowa State University of Science & Technology

- Bachelors of Science, Electrical Engineering with emphasis on Computer Science

National Technological University (NTU)

- Coursework in pursuit of Masters degree in Computer Science

Program Management Certification (PMP)

- 2009 Project Management Professional from the Project Management Institute (PMI)

Cisco Certification

- Cisco Wireless LAN Specialist (WLANAM - #646-102)
- Cisco VPN/Security Specialist (VPNS - #646-301)
- Cisco Sales Expert (CSE - #646-202)

Sun Educational Services

- Certificates in Sun operations, design and maintenance

IT Infrastructure Library (ITIL) Training

- As Provided by Computer Science Corporation

PERSONAL INFORMATION ABOUT JOHN H. DEROSA

- National, local and internal corporate speaker/trainer on networking topics
- Past Illinois Director, Soaring Society of America (<http://ssa.org>)
- Past President, current secretary, ChicagoLand Glider Council (<http://chicagolandglidercouncil.com>)
- President, Sky Soaring LLC (<http://skysoaring.com>)
- Past Chairman, Board of Trustees, First Congregational Church of West Dundee
